The Kannapolis Fire Department's primary goal is to provide rapid and reliable care of a high quality to anyone in Kannapolis requesting help through the 911 system. It is understood that many organizers of special events desire the presence of KFD at their event to provide for the safety of its attendees. Below are the criteria for the necessity of medical standby for KFD.

- 1. The Event is on a scale of anticipated attendance, where the number of people brings a significant "large population" to a single locale that could raise the probability of a need for Emergency Medical Attention. (500 or greater)
- 2. The Event is of a nature that unusual hazards exist or exist in quantity/scale that creates a potential hazard to those in attendance. In these instances, the public good of the audience may be better served by direct on-scene availability of Emergency Medical Coverage.
- 3. The Event location and activity is such that access to anyone requiring Emergency Medical Attention would be difficult and take longer than normal, due to the nature of the Special Event. (Roads closed or difficult access, communications difficulties, etc.)

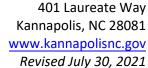

If the need for Special Event Emergency Medical Services Coverage is not clearly addressed with these guidelines, consultation with the KFD Division Chief of Emergency Services is necessary. The City of Kannapolis reserves the right to require the host of a Special Event to provide Emergency Medical Services coverage for a given Special Event whenever that event may have a disproportionate impact on public safety in the city.

The use of Mobile Food Trucks or Vendors at an event is subject to the following codes and ordinances directed by the City of Kannapolis Planning Department. Although it is the Food Truck's responsibility to obtain a zoning permit for your event, it is ultimately the event organizer's responsibility to ensure compliance. Below are the criteria for mobile food vending from the City of Kannapolis Unified Development Ordinance.

5.38.1. APPLICABLILITY - The provisions of this Section shall apply to any mobile food vending as defined in Appendix A [of the UDO] and allowed in Table 4.6-1 (See Article 4 [of the UDO]) subject to the provisions below.

5.38.2. Permit Requirement

- **5.38.2.1.** A mobile food vendor, or the property owner on which mobile food vending will be placed shall obtain a zoning clearance permit. Permits must be posted in a visible location on the mobile food vending unit.
- **5.38.2.2.** The property owner will be issued a notice of violation if no permit has been issued for the location. However, the mobile food vendor will be cited if located on a property without property owner approval.
- **5.38.2.3.** A permit shall be valid for one calendar year and must be renewed on an annual basis.

Check here if this section is not applicable to your special event.

5.38.3. Site Criteria

- **5.38.3.4.** In all districts where food trucks are allowed, the mobile food vending unit shall provide one (1) parking space per 250 square feet of the mobile food vending unit. - **5.38.3.6.** Mobile food vending units are required to return to their associated commissary at the end of each business day.
- **5.38.3.7.** These restrictions shall not be applicable to special events recognized by the City where mobile food vending is permitted or non-profit events of five (5) days or less.

The Ordinance to Establish Downtown Private Use Zones States:

Film and Photography Guidelines

Check here if this section is not applicable to your special event.

Event Name:	
Event Date:	
Event Start Time:	

The City of Kannapolis does not distinguish between types of filming, such as commercial, non-commercial, or news gathering. Low-impact filming activities will not require a special event permit, but non-low-impact filming activities will require a permit to address their potential impacts on City resources and services.

<u>Low-Impact Filming:</u> Low-impact filming is defined as outdoor filming activities in areas open to the public, except areas managed as wilderness, involving five people or less and equipment that will be carried at all times, except for small tripods used to hold cameras. Those participating in low-impact filming activities do not need a permit and are not required to contact the City in advance. However, if low-impact filmers have questions about areas where they want to film, they should contact the City.

If ALL of the below characteristics apply to your production, and your production takes place on public property, streets or sidewalks, your production will not require a permit.

- No disruption of day-to-day operations of community and other permitted activities
- Uninterrupted flow of pedestrian and vehicular traffic
- Production may not blockade any street, sidewalk, alleyway, or public park trail
- Minimal number of persons in cast and crew
- No exclusive use of City Property
- Produce no amplified sound or other prohibited noises as outlined in Kannapolis City Code
- Involves no disruptive or alarming special effects
- No lighting, or minimal lighting used
- Minimal camera equipment
- All production staff must follow all vehicular and pedestrian laws at all times

When on City property, videographers, filmers, producers, directors, news and other staff associated with filming are reminded that rules and regulations, including park hours and closed/restricted areas, still apply to filming activities even if a permit is not required. Check with the City staff for more information on closures, sensitive resources, and other safety tips.

High-Impact Filming: Filming activities that do not meet the description of low-impact filming require at least ten days advance notice to the City of Kannapolis by contacting us in writing by e-mail. The Communication Director will determine whether the filming activities will require a special event permit for filming. Based on the information provided, a permit may be required to:

- maintain public health and safety;
- close any public street;
- protect environmental or scenic values;
- protect natural or cultural resources;
- allow for equitable allocation or use of facilities; or
- avoid conflict among visitor use activities.

APPENDIX J

Film and Photography Guidelines (Continued)

In addition, commercial film or photography productions taking place on public streets or sidewalks that have any of the following characteristics will require a permit issued through the Special Events Application:

- Partial or full blockade of any street, sidewalk, alleyway, or public park trail
- Reserved use of City parks or other public spaces
- Road closures
- Amplified noise or other loud sounds prohibited by Raleigh City Code
- Requires the reservation of public parking spaces
- Production has a significant impact on the community's day-to-day operations
- Involves disruptive or alarming special effects, lighting, technical equipment, or props
- Requires infrastructure set-up on City property

Other Commercial Filming Rules and Regulations

Application Deadline: 15 days to 90 days depending on the complexity of the request. The Special Events Office staff will attempt to accommodate late film requests whenever possible but reserves the right to deny any request if there is not sufficient time for processing.

Production organizations must keep their Special Event Permit accessible for the duration of all productions, must produce this permit upon request by any City official, and must abide by the conditions and permissions as outlined within the permit.

The on-site production contact listed on the permit must be accessible by cell phone for the entire duration of any film or photography shoot

Use of explosives, pyrotechnics, fire, smoke, gunfire (including blanks), weapons (including fake), speeding cars, sirens, public safety personnel actors, and similar special effects are prohibited unless specifically approved in writing by the City

Alteration to any City property, including removal or trimming of vegetation or the removal or relocation of City vehicles, equipment or infrastructure is prohibited unless specifically approved in writing by the City

Production vehicles may not block fire hydrants, fire lanes, or other emergency access points unless specifically approved in writing by the City

Production vehicles may not block driveways and other access points, and may not violate general posted parking restrictions, unless specifically approved in writing by the City and by the affected property owner if applicable

Lighting for filming must be oriented away from residences and may not be used between the hours of 11:00pm and 6:00am unless specifically approved in writing by the City

Production companies are responsible for cleaning and restoring the filming site and the surrounding environment to its original condition in a timely manner, and will be held responsible and billed accordingly for any damages made to City property

General Liability Insurance naming the City of Kannapolis as additional insured is required for any commercial filming activities on public property. Productions involving certain other elements may be subject to additional insurance requirements

APPENDIX J

Film and Photography Guidelines (Continued)

Notification Policies: Production organizers are expected to work with the local community to accommodate access needs during the production. At least 72 hours in advance, production organizers must notify every resident, business, and places of learning and worship located within the immediate area of the production or in close enough proximity that they will be inconvenienced by the road closures, lights, traffic, parking, and/or noise impacts associated with the production activities. For extensive filming productions, additional notification requirements and deadlines may be imposed. The organizer can use any form of communication, provided that the notification covers all required components listed below:

- Name of Production
- Name of Production Organization
- Date and timeframe of filming production
- Description of associated road closures
- Description of any noise impacts or unusual special effects, such as a staged crime scene
- Name, phone number, and email address for on-site production organizer

Private Property

The City of Kannapolis does not regulate filming or photography on private property. However, any special equipment or effects (such as explosives, smoke, stunts, fight scenes, bright lighting, etc.) that are visible or audible from public streets or sidewalks should be communicated to the City of Kannapolis Communications Department as soon as possible.
