Project Information

Project Name: _____ Project Address: _____

Parcel PIN: _____ Size of property (in acres): _____ Disturbed Area (in acres) _____

Project Description: _____

Is site development proposed within the FEMA 100-year flood fringe? Yes No

Will any activities impact an NCDOT public street Right-of-Way (ROW)? Yes No

Will any activities impact a City of Kannapolis public street ROW? Yes No

Will any activities take place within a public utility easement? Yes No
(i.e. – water, sanitary sewer, storm drainage, power, gas)

Applicant agrees to the following items:

1. Prior to land disturbing activities (which include grading, grubbing and utility installation), an erosion control permit has been obtained from NCDEQ.
2. Install and maintain, in property working order, erosion control measures as needed to prevent sedimentation from leaving the site.
3. Remove any sediment and or aggregate discharged onto streets immediately.

The signing of this application certifies that you are aware of the requirements and that the information submitted on this form is true and accurate.

Note: This is not a permit to occupy or construct. Owner and/or applicant are responsible for the location of utility lines and easements.
